SeneGence was founded on the idea to offer superior products and an opportunity for women to be independent and successful in business regardless of age, background or education.
Joni Rogers-Kante, CEO and Founder of SeneGence International, had a vision of a company with products that really work and a career that really works long before finding the premier product. Once she discovered a long-lasting liquid lip color unlike anything she had seen before, she knew she needed to share it with the world.

In 1999, SeneGence exploded into the marketplace with the launch of LipSense® patented color technology, and SeneGence quickly rose in popularity as the creator of the original long-lasting lip color.

This was only the beginning of an entire line of long-lasting cosmetics and revolutionary anti-aging skin care products. Over the years, SeneGence has grown to support thousands of successful careers and satisfied customers around the world and remains steadfast in its commitment to use only the most advanced technologies to make skin more beautiful.

_I stand behind our products 100% and guarantee your skin will look more beautiful in 30 days when using our 24 hour anti-aging skin care and long-lasting color systems._

Joni Rogers-Kante
FOUNDER & CEO
As a result, SeneGence has positively affected the lives of thousands of women and their families worldwide, and it all begins with our products...
SeneGence has developed highly advanced anti-aging skin care and cosmetics systems that help make every skin type more beautiful and radiant.

In the Vanuatu string of islands in the South Pacific, Joni worked with scientists and discovered naturally reoccurring resources proven to be beneficial to the skin.

Today, SeneGence products can be found in over 13 countries around the world, helping to make skin healthier and more beautiful. Joni ventures to international destinations regularly and enjoys sharing SeneGence with everyone she meets while guiding them to be their most confident self with products that really work.

The distinctive ingredients incorporated into SeneDerm® SkinCare systems, SenseCosmetics™ beauty items and the SeneDerm Solutions™ line, resulting in dramatic improvements to the skin. They also help to provide crucial sun protection without the use of unnecessary chemicals.
All SeneDerm, SeneDerm Solutions, and creamy SenseCosmetics contain SenePlex Complex, a kinetic enzyme that affects the way cells grow from the bottom layers of the skin to the top. SenePlex fights the signs of aging by renewing your skin cells an average of 23.3% more rapidly.
